

OUR PROJECTS

SECTOR: HOSPITALITY

HEIST RESTAURANT & WINE CLUB

168 Wellington Street, Kingston, ON

DESCRIPTION:

Located in a historic building in downtown Kingston, Heist Restaurant & Wine Club provides fine-dining and extensive wine selections for residents and tourists. Originally a long-standing bank tenant, this space has been renovated to house a new 150 seat, 5,500 sq ft fine-dining restaurant and wine bar complete with full commercial kitchen, large bar, wait stations, washrooms, and storage.

CONSULTING SERVICES:

Callidus Engineering designed all aspects of the mechanical and electrical systems for this renovation. The HVAC and plumbing systems included a custom vented pizza oven, commercial kitchen cooking and dishwasher hoods, make-up air, watersource heat pumps, controls, hot/cold domestic water supply, sanitary drainage and all plumbing fixtures. The power, lighting and life safety systems included detailed coordination of kitchen and bar equipment, fire alarm design, communication and security systems, and power distribution. The lighting design was coordinated closely with the restaurant's interior designer.
